

Marine Function Zone, and submitted to the State Council for approval. This plan establishes an island protection system composed of the National Island Protection Plan, the Coastal Provinces (Autonomous Regions and Municipalities) Island Conservation Plan, the Island Protection Plan of Coastal Cities and the Site of the Township People’s Government, Coastal County Island Protection Plan, Protection and Utilization Plan of Usable Uninhabited Islands, and regulates the principle, content, compilation, approval, modification, publication and effectiveness of the plan.

Strict Limitations on Buildings and Facilities Construction on Islands

It is critical for island protection to strengthen ecological protection of the island and prevent the destruction of the island ecology. Therefore, in the

Beautiful scenic natural environment and exotic island scenery in “Hailu Island” Scenic Resort of Xixiakou in Weihai City, Shandong Province has been attracting tens of thousands seagulls to live here.
